

**Title: Yale Just Proved COVID Vaccine Injury Exists and Spike Production Persists for Years Inside the Body By A Midwestern Doctor [LewRockwell.com]**

*Key Takeaways:*

- A Yale study discovered that the COVID vaccine can persist in the body, leading to long-term immunological impairments<sup>1</sup>.
- The vaccine spike protein can remain in the body for at least 709 days, causing chronic immunological suppression and autoimmunity for at least two years, which directly correlates to chronic illnesses<sup>1</sup>.
- The study was conducted by immunologists who originally strongly endorsed the vaccination<sup>2</sup>.
- Vaccines aim to mass-produce a dangerous organism's antigen without the organism itself being present, and then administer that antigen into the body<sup>3</sup>.
- The intention is to achieve the intermediate stage of an infection, where a large number of antigens are available to match a circulating immune cell, without the individual being in danger of being damaged or overwhelmed by the infection<sup>3</sup>.
- When there is a choice between getting a dangerous vaccine to market or holding off because there isn't a way to do it safely, the vaccine industry will always choose the risky approach, especially in "emergency" situations<sup>4</sup>.
- The industry relies on the government to promote the product as "safe and effective" and to legally shield them from the disaster which inevitably follows<sup>4</sup>.

**Title: Message to DOGE: FDA, Pfizer and Moderna committed fraud during the approval process for the mRNA covid "vaccines" By Rhoda Wilson [TheExpose.uk]**

*Key Takeaways:*

- A petition alleges that the FDA's fraudulent actions led to Pfizer and Moderna receiving at least \$16 billion in improper payments for their COVID injections<sup>5</sup>.
- The petition seeks the FDA to revoke approvals for Pfizer-BioNTech and Moderna's COVID injections, citing the FDA's failure to acquire Environmental Assessments and the products' excessive synthetic DNA contamination<sup>5</sup>.
- The FDA enabled Pfizer and Moderna to avoid expert and public scrutiny by not requiring them to disclose that their COVID injections were gene therapies, not vaccines<sup>6</sup>.

- 

Had the FDA not illegally allowed Pfizer and Moderna to avoid submitting Environmental Assessments, both companies would have had to disclose that their products properly fall under FDA Guidance for being correctly deemed gene therapies<sup>7</sup>.

- 

The disastrous pre-2020 history of the development of LNP-modRNA platforms and their being properly deemed gene therapies threatened the applications of both Pfizer and Moderna<sup>8</sup>.

- 

By the FDA illegally enabling Pfizer and Moderna to avoid submitting Environmental Assessments, the FDA was able to steer their applications to the Vaccines and Related Biological Products Advisory Committee (“VRBPAC”), a committee whose members have known and acknowledged conflicts of interests, and little expertise with gene therapies<sup>9</sup>.

- 

There are strong grounds to assert that violations of 18 US Code §§ 1001, 371, 1343, and 31 US Code § 3729 may have occurred<sup>10</sup>.

### **Title: Time To Kash-Out the Rogue FBI By David Stockman** [*David Stockman's Contra Corner*]

#### *Key Takeaways:*

- 

Kash Patel was confirmed as FBI director<sup>11</sup>.

- 

The FBI went all-in on the Deep State campaign to defenestrate Donald Trump in 2016 and after<sup>11</sup>.

- 

The FBI knew the Russian election interference story was a complete hoax, and top officials were deeply complicit in its manufacture and dissemination<sup>11</sup>.

- 

The Federal Bureau of Investigation is a rogue institution steeped in ignominy and disdain for constitutional liberty and democracy<sup>12</sup>.

- 

During the misbegotten War on Terror it became a fount of false fear-mongering, stings and entrapment ploys<sup>13</sup>.

- 

Whenever there is a choice between getting a dangerous vaccine to market or holding off because there isn't a way to do it safely, the vaccine industry will always do the risky approach, especially in “emergency” situations<sup>4</sup>.

- 

Patel's mandate should be to gather and reveal all the crimes and abuses of the FBI's history<sup>14</sup>.

### **Title: Understanding China – Part 8 — Shanghai Diary By Larry Romanoff**

[*bluemoonofshanghai.com*]

#### *Key Takeaways:*

- China can build hospitals very quickly; one was built in ten days by 16,000 men working in three shifts, 24 hours a day<sup>15</sup>.
- China has no telephone books with names, addresses, and phone numbers for businesses and individuals<sup>16</sup>.
- Fireworks in China come assembled in a cardboard box with the rockets arranged vertically, and all the fuses interlinked and timed so they detonate in a set order<sup>17</sup>.
- A small wheel of firecrackers might contain only a few thousand firecrackers while a large one can contain 15,000 or more<sup>18</sup>.
- China built a practice location to prepare for an event, with people practicing for 5 to 8 months<sup>19</sup>.
- Soldiers and others each wore out three pairs of shoes during the practices<sup>19</sup>.
- The precision of everything was astonishing, and fascinating to watch<sup>19</sup>.

**Title: Revisiting Made in China 2025 (MIC25) By Hua Bin [huabinoliver.substack.com]**

*Key Takeaways:*

- The Made in China 2025 (MIC25) project is a ten-year plan launched by the Chinese government in 2015 to promote innovation, enhance technological self-reliance, and move up the manufacturing value chain<sup>20</sup>.
- The west has misjudged the Made in China 2025 project<sup>20</sup>.
- The Chinese government has delivered on almost all its goals (260 of them) in the MIC25<sup>21</sup>.
- China is even way ahead of its own targets in many critical areas such as EV production and green energy adoption<sup>21</sup>.
- The MIC25 identified 10 major industries for China to focus on, with specific targets set to measure success in each area<sup>22</sup>....
- China has developed the most sophisticated high-speed rail technology and built the longest high-speed rail network globally at 48,000 kilometers, more than the rest of the world combined<sup>24</sup>.
- One of the most alarming aspects of MIC25 for the US is China's ability to fuse military and civilian technology development<sup>25</sup>.

## **Title: The Catholic Church and the Ethics of IVF**

### *Key Takeaways:*

- There is an urgent need for education on what IVF entails<sup>26</sup>.
- The Catholic Church is the first defense against the false promises of IVF and in favor of human dignity<sup>26</sup>.
- The argument, however, is a difficult one to make in modern culture that already accepts abortion<sup>26</sup>.
- One can find many arguments based on the millions of embryonic children whose lives are suspended in a cryogenic storage tank awaiting their fate, for this is a terrible consequence of IFV<sup>26</sup>.
- For well over a century, IVF was recognized as a procedure that is immoral because it replaces the conjugal act in marriage<sup>27</sup>.
- In the insemination procedure, sperm are injected into the female's uterine cavity (or cervix), whereas IVF involves introducing the sperm to the female egg in a petri dish<sup>27</sup>.
- If the Church's wisdom regarding the dignity of the human person had been heeded, there would not be millions of embryonic children in freezers today<sup>27</sup>.

## **Title: The damage education does By Rhoda Wilson [*TheExpose.uk*]**

### *Key Takeaways:*

- The purpose of education is to prepare you for work and to train you to become obedient to what society expects from you<sup>28</sup>.
- Our exposure to toxic stress begins at a very early age, starting when we attend school for the first time<sup>29</sup>.
- Society values obedience highly and rewards the obedient more than any other group<sup>30</sup>.
- The obedient will work hard without question and can be relied upon to do work that is dull, repetitive, and possibly even dangerous<sup>30</sup>.
- The aim of a modern education is to harness the minds of the imaginative or potentially disruptive<sup>31</sup>.
- The price you pay for your education is a high one, and the more successful your education is in society's terms, the greater the price you must pay<sup>31</sup>.
-

The modern educational system is designed to support the structure of our society but it is also a major force in the development of toxic stress<sup>32</sup>.

### **Title: The Duke Report - Palmerston's Zoo Episode 06 - America's 'Young America' Movement\_Slaveholders, B'nai B'rith, and the British Strategy.mp3**

*Key Takeaways:*

- In 1860, Lord Palmerston's quest for world empire will enter its most critical phase with the American Civil War being provoked by Young America and other pro-British networks<sup>33</sup>.
- Britain will ready the fleet and send troops to Canada<sup>33</sup>.
- Benrith was started officially in 1843 by some obscure Freemasons in New York as a secret society like Freemasonry for Jews<sup>34</sup>.
- Edwin Deleon praised his teacher at the school, Thomas Cooper, an English atheist and Lord Shelburn's adventurer, who had first proposed that the South secede from the Union<sup>34</sup>.
- Banker Belmont paid for the Knights of the Golden Circle and Young America projects which he helped plan while he was US ambassador to the Netherlands<sup>35</sup>.
- Only hours before going to Ford's Theater to shoot the president, Booth met with his old friend Ben. Washington, Chief Simon Wolf, for a confidential discussion over some drinks<sup>36</sup>.
- After the war, the Ku Klux Klan was started up in Tennessee to stop newly freed blacks from voting<sup>36</sup>.

### **Title: Trump as Peacemaker: A Skeptical View**

*Key Takeaways:*

- Investigator journalist Whitney Webb has reported extensively on Thiel and Vance's ties and the interconnections between them and other supporters of the surveillance state tied to the Democrats, such as former Google CEO Eric Schmidt, among others<sup>37</sup>.
- In a digital age, technological technique is King Propaganda, and technique transforms everything it touches into a machine<sup>38</sup>.
- The way out is to stop reacting and do what the press is obligated to do: be skeptical, question authority, and don't be cheerleaders for anyone in power, whether they be Biden or Trump or someone else<sup>39</sup>.
- Unlike the Biden warmongers who presented themselves in a more circumspect manner while propagandizing the American public, Trump makes it very clear that digital technology is his key to rule<sup>40</sup>.

- Elon Musk and Peter Thiel are two technological billionaires who should be considered crucial to Trump's plans<sup>41</sup>.
- The propaganda from the Biden administration and their mainstream media accomplices should have taught everyone that<sup>41</sup>.
- The appeal of a savior is very powerful<sup>41</sup>.

### **Title: Trump, Peace, and the West's Ukraine Folly**

#### *Key Takeaways:*

- Trump appears to be taking on the mantle of a strong and wise man who will lead mankind out a dark time of childish and destructive folly<sup>42</sup>.
- NATO proposed Ukrainian membership at that time, and it struck me as a deliberate provocation of Putin<sup>43</sup>.
- Washington hated it that Germany and Russia were apparently becoming pals, and the Nord Stream Pipeline was regarded as an odious symbol of Russian-German cooperation<sup>44</sup>.
- The Biden administration and the leaders of Western Europe were perfectly comfortable with keeping the killing going<sup>45</sup>.
- If there is evidence that our western leaders aren't totally depraved, I've still not seen it<sup>45</sup>.
- Hungarian Prime Minister Viktor Orban expressed optimism that Trump and Putin would work out a peace deal<sup>45</sup>.
- "Because strong men make peace. Weak men make war"<sup>45</sup>.

### **Title: Is It Foreign Aid or Covert Action?, by Philip Giraldi [unz.com]**

#### *Key Takeaways:*

- The Trump administration decided to cut back on government agencies that are ostensibly committed to charitable, educational, and other nation-building activities<sup>46</sup>.
- USAID was founded in 1961 during the John F. Kennedy administration to unite several foreign assistance organizations and programs under one agency<sup>47</sup>.
-

USAID's focus eventually became to guide development in parts of the world that suffered from what were considered to be dysfunctional governments and institutions in terms of American interests<sup>47</sup>.

Trump's reduction in force (RIF) of USAID has been accompanied by a shake-up in its management, its remaining responsibilities now being in the hands of the Secretary of State Marco Rubio<sup>47</sup>.

USAID and NED do have humanitarian projects, i.e., feeding the hungry, but they are primarily politically driven<sup>48</sup>.

USAID leaders were "radical left lunatics"<sup>49</sup>.

USAID and NED are both notorious for their roles in the business of covertly supporting opposition political parties worldwide and assisting in regime change<sup>50</sup>.

### **Title: ursula.pdf**

#### ***Key Takeaways:***

Ursula von der Leyen's father and mother are marked as "private" on Geni.com, unlike on Wikipedia<sup>51</sup>.

Ursula is related to former UK Prime Minister Boris Johnson<sup>52</sup>.

The Albrecht family is a North German family whose members have been prominent as civil servants, politicians, and businesspeople<sup>53</sup>.

During her time studying economics at London's LSE, she went by the name Rose Ladson to protect herself as German politicians were actively being targeted by Red Army Faction leftist militants<sup>54</sup>.

It has been alleged that about half of Ursula's PhD dissertation contains plagiarism<sup>55</sup>.

Since December 2020, Ursula's husband is Medical Director of the company Orgenesis, which specialises in cell and gene therapies<sup>56</sup>.

It seems that Ursula still sympathizes with the idea of owning slaves<sup>57</sup>.

### **Briefing Document: Review of Selected Sources**

#### **I. OVERARCHING THEMES:**

- **Distrust of Institutions:** A recurring theme is a deep distrust of major institutions, including government agencies (FBI, FDA), the pharmaceutical industry, the media (specifically *The New York Times*), and even aspects of the Catholic Church and the modern educational system. This distrust stems from perceived corruption, fraud, overreach, and a disregard for individual liberties.
- **Hidden Agendas and Conspiracies:** Many of the sources suggest that powerful entities are operating with hidden agendas. This includes accusations of the FDA and pharmaceutical companies

profiting from "deaths and injuries" related to COVID vaccines, the FBI concocting plots, and the EU's Ursula von der Leyen being part of a larger aristocratic/Jewish cabal.

- **Erosion of Freedoms and Truth:** Several sources express concern about the erosion of freedom of speech, the rise of censorship, and the suppression of dissenting voices. This is linked to both government overreach and the influence of powerful private interests.
- **China's Ascendancy and Western Misconceptions:** Some sources emphasize China's growing technological and economic power while criticizing the West's (specifically the U.S.) underestimation of China's innovative capabilities.

## II. KEY IDEAS AND FACTS FROM EACH SOURCE:

### A. "COVID Vaccines: Yale Study, Vaccine Injury, and Spike Protein Persistence":

- **Sensitivity vs. Specificity:** This source highlights the inherent trade-offs between sensitivity and specificity in testing and policy-making, citing examples from both medical diagnostics and the justice system. "An ideal death penalty is robust enough to deter murder (and keep violent criminals away from the public), but simultaneously lenient enough that it doesn't accidentally execute innocent individuals."
- **Lobbying and Over-Diagnosis:** Raises concerns that lobbying can lead to over-diagnosis to sell medical products.

### B. "DOGE Exposes FDA, Pfizer, and Moderna Covid Fraud":

- **FDA Fraud Allegations:** Alleges that the FDA committed fraud during the approval process for mRNA COVID vaccines, leading to billions in improper payments.
- **Citizen Audits:** Reports that "DOGE teams are auditing the internal systems of at least 18 US Federal Government departments, agencies and administrations including the FDA."
- **Whistleblower Support:** Shares a message from a lawyer, Julian Gillespie, detailing alleged fraud.

### C. "Kash Patel, the FBI, and Justice":

- **FBI as a Rogue Agency:** Portrays the FBI as a corrupt and lawless institution with a history of constitutional violations. "The Federal Bureau of Investigation is a rogue institution of the Washington Swamp steeped in a lifetime of ignominy and disdain for constitutional liberty and democracy."
- **FBI Entrapment:** Cites examples like the Fort Dix Plot and the Michigan Militia Case where the FBI allegedly encouraged and facilitated criminal plots.
- **Decentralization of Law Enforcement:** Argues for decentralizing law enforcement, suggesting that crime prosecution is best kept away from the nation's capital.
- **FBI Budget vs. Crime Rates:** Claims there is no correlation between the FBI's increasing budget and crime rates in America.

### D. "Larry Romanoff's Shanghai Diary: Observations on China":

- **Scale of Chinese Construction:** Highlights the massive scale of housing and infrastructure development in China. "Each year, China builds enough new homes for about 25 – 30 million people – which means more or less an entire Canada is being created in new housing stock every year."
- **Chinese Innovation:** China isn't inferior to the West in any way.
- **Civic Holiday:** Reports that all the housing and construction works.
- **Chinese New Year Celebrations:** Describes the intense and widespread fireworks displays during Chinese New Year.
- **Chinglish:** Appreciates Chinglish.
- **Chinese Food Diversity:** Notes the vast array of different foods and dishes available in China.

### E. "Made in China 2025: Successes, Lessons, and Western Misconceptions":

- **Made in China 2025 Plan:** Explains the MIC25 plan and its 10 major industries for China to focus on.

- **Chinese Technological Progress:** Highlights China's achievements in various sectors, including space technology, shipbuilding, and biopharmaceuticals.
- **Domestic Production:** Domestic production surpasses foreign production in many ways.
- **US Dependence on China:** Claims that the US defense industrial base depends on China for critical inputs.
- **China can innovate, and the west is not superior.**

#### F. "The Catholic Church and the Ethics of IVF":

- **Church's Opposition to IVF:** Explains the Catholic Church's stance against In Vitro Fertilization (IVF), based on the separation of the unitive and procreative aspects of marriage.
- **Rights of Children:** Argues that IVF violates the rights of children to be conceived in love by a married mother and father.
- **Ethical Concerns About Embryo Handling:** Raises concerns about the freezing, destruction, and donation of "leftover" embryos. "With abortion, these unwanted fetal children can be killed. With IVF, there is a gray area."

#### G. "The Damage Education Does: Obedience and Toxic Stress":

- **Education as Toxic Stress:** Suggests that the modern educational system contributes to toxic stress.
- **Education Indoctrination:** The essay comes from a book by a professional author.

#### H. "The Duke Report - Palmerston's Zoo Episode 06 - America's 'Young America' Movement\_

#### Slaveholders, B'nai B'rith, and the British Strategy.mp3":

- **British Influence on American History:** Alleges that British interests played a significant role in the American Civil War through the "Young America" movement and other networks.
- **B'nai B'rith as a British Tool:** Presents B'nai B'rith as a British weapon against the United States, Russia, and other nations.
- **Historical Figures as British Agents:** Claims that figures like Isaac Weise, Judah Benjamin, and Albert Pike were involved in a pro-slavery secessionist conspiracy orchestrated by the British.
- **Conspiracy Theory:** Reports of KKK and Freemasons.

#### I. "Trump as Peacemaker: A Skeptical View" and "Trump, Peace, and the West's Ukraine Folly":

- **Skepticism About Trump's Peace Efforts:** Expresses skepticism about Donald Trump's ability and genuine desire to achieve peace in Ukraine.
- **NATO's Anti-Russia Agenda:** Argues that NATO's primary goal is to destroy Russia as an independent country. "NATO's only raison d'être is to destroy Russia as an independent country and create regime change there through multiple means."
- **Western Provocation of Russia:** Suggests that the West deliberately provoked Russia into invading Ukraine.
- **Trump as the only Statesman:** Trump is the only Western Statesman who wants peace.

#### J. "ursula.pdf":

- **Ursula von der Leyen Conspiracy:** Presents a conspiratorial narrative about Ursula von der Leyen's ancestry, education, and career, alleging hidden Jewish roots, plagiarism, and connections to powerful elite families.
- **Antisemitism:** Implies and outright states that Jewish people are at fault in society's current issues.
- **Fake Degrees:** The LSE story looks very much like a cover story and that she never set foot in it.
- **Baader-Meinhof Gang Connection:** It seems that Ursula was sent to London for a year "to try everything and get a strong inner freedom", that is, to live the good aristocratic life.
- **Unfit for Position:** Notes that she did not seem like she was fit to be the Merkel's Defence Minister.

### III. CAUTIONS AND CONSIDERATIONS:

- **Bias and Reliability:** The sources exhibit varying degrees of bias. Many come from websites known for promoting conspiracy theories or having a strong political agenda. It's crucial to approach the claims with extreme caution and cross-reference information with reliable sources.
- **Lack of Evidence:** Many of the assertions lack concrete evidence or rely on circumstantial connections. Be wary of accepting claims without verifiable proof.
- **Conspiratorial Thinking:** The presence of conspiracy theories should raise red flags. Conspiratorial thinking can distort reality and lead to harmful beliefs.
- **Antisemitism:** The "ursula.pdf" document has antisemitic undertones, attributing negative attributes to Jewish ancestry and promoting stereotypes.
- **Historical Accuracy:** Some historical claims should be verified with reliable scholarly sources.

#### IV. CONCLUSION:

These sources present a critical view of various institutions and powerful figures, often alleging corruption, hidden agendas, and the erosion of individual freedoms.
